National Disability Employment Awareness Month
In October, Americans observe National Disability Employment Awareness Month by paying tribute to the accomplishments of the men and women with disabilities whose work helps keep the nation's economy strong and by reaffirming their commitment to ensure equal opportunity for all citizens.
This effort to educate the public about the issues related to disability and employment began in 1945, when Congress enacted Public Law 176, declaring the first week of October each year as National Employ the Physically Handicapped Week. In 1962, the word "physically" was removed to acknowledge the employment needs and contributions of individuals with all types of disabilities. Some 25 years later, Congress expanded the week to a month and changed the name to National Disability Employment Awareness Month.

White Cane Safety Day
White Cane Safety Day is a national observance in the United States, celebrated on October 15 of each year since 1964. The date is set aside to celebrate the achievements of people who are blind or visually impaired and the important symbol of blindness and tool of independence, the white cane.
